Assignment 0902 Feedback

For outcomes that get **+**'s, there isn't much more to say except "keep doing it that way." **:)** Feedback for other proficiencies focus on specific points of improvement in order to advance. The answer to "how do I improve my proficiencies" is always "do what I write down in the feedback."

4d — Nothing showed up from you except for your Google account, and that was submitted in a way that diverged from the instructions (thus making me track down your GitHub repository on my own, too)— please follow instructions more closely next time. (**/**)

4e — You made a repository but I had to find that for myself; no pull request though. (**/**)

4f — Sort of submitted on time, but instructions not completely followed. (**/**)
